Please proceed with looking over the documents – be selective on critical information needs and value of time spent.

Subject: Rico Documents

Steve,

Not sure if you have the Rico website set to notify you when documents are posted, but I am. I got about 50 e-mails on Friday regarding documents that had been posted. From a quick look at the titles, I believe it's the updated source water report and a lot of the support documentation we

had requested.

I assume it's OK for me to review the primary document, then review the other documents as appropriate. Let me know if you'd rather I didn't.

Believe it or not, I enjoyed the work at Red & Bonita and Gold King a few weeks ago, especially when the rain stopped. Hope your work goes well this week. I'm working on the Red & Bonita Polrep – let me know if you need anything else.

Jan
